

EXP NO: 5

## POKER ESTIMATION

### Aim:

Create Poker Estimation for the user stories - Music Playlist Batch Creator Project.

### Poker Estimation

The screenshot displays the Azure DevOps interface for a work item titled "45 Display doctor schedule calendar" created by Shikha Ajith. The interface is divided into several sections:

- Header:** Shows the project path "shikhaajith2024aids / Hospital Appointment System / Boards / Work items" and a search bar.
- Left Sidebar:** Contains navigation icons for Home, Backlogs, Boards, Work items, and Repos.
- Main Content Area:**
  - Description:** A section for adding a description, currently empty with a "Click to add Description" prompt.
  - Discussion:** A section for adding comments, currently empty with a "Add a comment" prompt.
  - Planning:** A section for planning the work item, including fields for Priority (2), Activity, and Effort (Hours) (Original Estimate, Remaining, Completed).
  - Implementation:** A section for implementation, currently empty.
  - Deployment:** A section for deployment, including a "To track releases" instruction and a link to "Learn more about deployment status reporting".
  - Development:** A section for development, including an "Add link" prompt and instructions on how to link an Azure Repos commit, pull request, or branch.
  - Related Work:** A section for related work, currently empty.

### Result:

The Estimation/Story Points is created for the project using Poker Estimation.
